YOUR NEXT MOVE

PLANNING AND EXECUTION

Tactical planning and administration takes away precious resources needed to complete important initiatives. Let us reduce the burden, build your teams, and support your efforts for the most efficient and effective project implementations. Essentially, there are two concepts that should be remembered when planning your institution's next move:

- **Strategy** is doing the right things.
- **Tactics** is doing things right.

We can help with both.

PROJECT PLAN DEVELOPMENT

- **SMART Goals and Critical Management**
Let us help you create a plan of action utilizing SMART goals and other critical project management best practices to create an attainable implementation plan with realistic expectations that satisfies leadership without overwhelming the employee base responsible for carrying out the project changes in addition to their regular responsibilities. Deliverables of this service include the identification of primary goals through prioritization exercises with detailed goals and action steps; secondary goal identification; recommended timeline for implementation; and champion identification with initial meetings to ensure goals and responsibilities are clear for the most effective project kick-off possible.

PROJECT MANAGEMENT OR SUPPORT SERVICES

- **Timely Administrative Oversight**
Project Management includes timely administrative oversight. Utilizing a web-based interactive project management tool and app, we will reduce the burden and create efficient real-time communication, document sharing and reporting capabilities accessible by all client identified project members. Additionally, monthly oversight and reporting of overall progress will be compiled and reported to the overall project champion or leadership team.
